

BACHARACH®

Airwatch PM 1500

Personal Monitor for the Measurement of Carbon Dioxide

This Bacharach Europe personal monitor utilises miniaturised dual wavelength infrared technology to monitor carbon dioxide concentrations in 0-5% range.

Specifically designed for protection of personnel working in potential CO₂ laden atmospheres.

Benefits

- Quick and easy calibration
- Compact and lightweight
- Rapid detection of CO₂
- Logged CO₂ exposure period

Features

- Automatic logging mode
- Stores up to 1500 reading sets
- Rechargeable batteries (fast charge 2 hours)
- 10 Hours operation
- Visual and audio alarms

Applications

- Personal protection where CO₂ is used or stored
